

Interim Anti-Doping Policy

The Fédération Internationale de Pétanque et Jeu Provençal (FIPJP) and our National Sports bodies require each Pétanque Association to adopt an anti-doping policy which covers drugs and alcohol. The WPA is endeavouring to comply with the UK National Anti-Doping Policy, and has begun to implement the terms of the policy, which is itself following on from the World Anti-Doping Agency's Code (2015).

As a first step, all players representing Wales, or taking part in competitions which may lead to qualification for or selection to play for Wales at International Tournaments, will be required to agree to comply with all drug and alcohol testing.

D J Murphey
National President
